# Worksheet

The worksheet format and size have been changed.

To improve the type face, the cell format has been changed from 1 / 1.33 (width / height) to 1 / 1.50.

Also the worksheet now has a fixed size of 256 x 256 cells. The *Options* menu to change the size between "72 x 72", "144 x 144" and "108 x 48" is removed.

# File format

The worksheets data saved in a new file format takes up less disk space. RedCrab V3.50 can read old and new formats. RedCrab's older versions cannot read data from files stored in version 3.5 or higher. The new file extension is \*.rcc

# Printer

The output to the printer has been revised and its functions expanded.

The right picture shows the new dialog box. By default, 64 columns per page are printed. The number of rows depends on the size of the page. By entering a different value, you can increase or decrease the printer output.

With the button *All* you print the working area of the worksheet from

position (1.1). If necessary, the worksheet is split into several pages. The layout of the pages is shown in the following table.

If the button *Page* is selected, individual pages can be printed.

With the button *Selection* you can print selected area of the worksheets. The print-out is positioned on the top of the page. *Center Selection* prints the selected area at the center of the page.

<p>Page 1</p> <p>Column 1..64 Row 1..68</p>	<p>Page 2</p> <p>Column 65..128 Row 1..68</p>	<p>Page 3</p> <p>Column 129..192 Row 1..68</p>
<p>Page 4</p> <p>Column 1..64 Row 69..136</p>	<p>Page 5</p> <p>Column 65..128 Row 69..136</p>	<p>Page 6</p> <p>Column 129..192 Row 69..136</p>

With the check box *Fit to page* the print-out is adjusted to the page size. The *Columns per Page* setting is ignoring. A small selected area can so enlarged to the width or height of the page. Similarly, a print-out what normally occupied several pages are reduced to one page.

Printing problems of result boxes and images with transparent backgrounds have been fixed.
